SUMMARY

Aspiring Frontend Web Developer skilled in HTML, CSS, and JavaScript. Demonstrated proficiency in collaborative coding environments using Git and foundational knowledge of Java. Seeking a Frontend Developer role to leverage technical skills and drive innovative web solutions through engaging and responsive design.

EXPERIENCE

- Built a simple and responsive login/register interface using HTML, CSS, and JavaScript.
- Added basic form validation and password show/hide toggle for better user experience.
- Implemented client-side input validation techniques to enhance data integrity and usability, and integrated interactive features to streamline the authentication workflow.

PROJECT

Weather App Using OpenWeatherMap API

Personal Project • github.com/swathi-webdev/Weather-App-using-OpenWeatherMap-API • June 2025 – July 2025

- Integrated the OpenWeatherMap API to deliver accurate real-time weather data, enhanced user experience through intuitive interface design, and optimized performance for seamless cross-device accessibility.
- Expanded application functionality by incorporating geolocation services, enabling automatic detection of user location and real-time weather updates tailored to individual preferences.

Login & Registration Page using HTML, CSS & JavaScript

Personal Project • github.com/swathi-webdev/Login-page • May 2025 – May 2025

- Implemented client-side input validation techniques to enhance data integrity and usability, and integrated interactive features to streamline the authentication workflow.
- Enhanced the login and registration page by incorporating asynchronous error messaging, refined visual feedback, and dynamic field validation to elevate user interaction and streamline the authentication process.

EDUCATION

Bachelor of Commerce in Computer Applications

Holy Cross College • Trichy • 2026 • 65%

Government Girls Higher Secondary School

Karur • 2023 • 80.33%

CERTIFICATIONS

Foundation of Web Development: CSS, Bootstrap, JavaScript, React

Udemy • 2025

- Certified in foundational web development with skills in CSS, JavaScript, Bootstrap, and React. Passionate about building responsive and user-friendly websites.

JavaScript Projects for Beginners: A Practical Approach to Learning JavaScript

Udemy • 2025

- Completed hands-on JavaScript projects like to-do list and calculator using DOM manipulation and event handling.
- Strengthened problem-solving skills through real-time coding tasks, enhancing understanding of JavaScript fundamentals.

Complete Java Programming Course

Udemy • 2025

- Mastered core Java concepts including OOP principles, data types, control structures, and exception handling.
- Developed console-based applications to apply Java programming skills in problem-solving and algorithm implementation.

SKILLS

Technical Skills: HTML, CSS, Javascript, Git

Languages: Java, JavaScript

Software: Visual Studio Code
